# EARTH WORLD COLLABORATIVE

Earth World Collaborative is a creative force generating new works of music, art, film, and literature through collaboration. Founded in 2017 by composers and organists Joel Peters and Adrian Foster, the collaborative's activities are centred on immersive story concerts, which integrate electronics, original compositions, projection, lighting, and special effects. These concerts generate a web of satellite projects that allow for innovative collaborations across numerous disciplines.

## ARTISTIC DIRECTION

Active as a composer and organist, **Adrian Foster** is also the co-founder and co-artistic director of Earth World Collaborative. He is dedicated to performing new music and has premiered works by many composers, including Michael Bonaventure, Jason Noble, and Noa Haran. Recent performances include the 2019 MNM Festival with the Société de musique contemporaine du Québec and Analog Arts. His own compositions frequently explore ambient and electronic sound worlds.

In addition to concertizing, conducting, and composing, **Joel Peters** is co-artistic director and founder of Earth World Collaborative, a creative force that generates new music, art, film and literature through collaboration. Peters has appeared as soloist in numerous venues and festivals, including the prestigious Montreal Bach Festival. As a composer, he has been published by Firehead editions, and commissioned by the AGO. He is currently organist at St. James United Church in Montreal.

[WWW.EARTHWORLDCOLLABORATIVE.COM](http://WWW.EARTHWORLDCOLLABORATIVE.COM)

**28 February 2020 - Le Gesù (Montréal)**

*presented by the CIOC and the Gesù as part of the 2020 Montréal en lumière Festival's "Nuit blanche"*

*Soluble Cities* is a meditation on the perpetually dissolving shapes and sounds of the metropolis. Through projections and minimalist music for organ and electronics, Earth World Collaborative presents an elegy to the forgotten elements of cities, creating an immersive atmosphere that invites and inspires us to experience our urban environment anew.

## HYDROÖRGANON 2.0

**29 June 2019 - St. James United Church (Montréal)**

*part of the Festival d'orgue Saint-James*

Clouds are ephemeral and intangible; they shape-shift, fade away, and emerge out of nowhere; they can be awe-inspiring and sublime. And likewise with music. One poet has said that "Architecture is frozen music". For us, clouds are living music. Clouds are music you can see but can't hear and music is a cloud you can hear but can't see.

## ASH WEDNESDAY INSTALLATION

**24 November 2018 - St. Matthias' Church (Westmount)**

Earth World Collaborative presents a concert dedicated to the study of morphing: molecular morphs, fictional morphs, melting morphs, visual morphs, sound morphs, poetry morphs, and you-name-it morphs. Our multimedia, multi-sensory journey is led by Michael Bonaventure's entire Morphology cycle for organ and electronics, along with new compositions by Peters and Foster.
